“Small deeds done are better
than great deeds planned”

SALEM-Uganda

.... has been looking after vulnerable children and young people from troubled backgrounds since 1981.

Our core mission is to support the children within their own families and children are only removed and brought to our children's home for residential care in emergency situations. Once they are settled with us, SALEM maintains contact with their original families and helps them to access education and vocational training they need to build a sustainable future for themselves.

SALEM relies on sponsorship to continue our vital work. There are two ways you can do this: by donating to the project as a whole, or by personally sponsoring a child.

Project sponsorship means that we are able to use your donation wherever there is greatest need and this is crucial to enable us to adapt to the changing needs of our children, enabling their long-term, appropriate professional care and support. When you opt for project sponsorship, donations do not just benefit one individual child but are used for the development of the home as a whole. If you opt to receive emails, you will be kept up to date with work at SALEM-Uganda as a whole.

Personal sponsorship means that your money is used for the wellbeing of one particular child. Unfortunately, the schools around our children's home are overcrowded and mainly cater for primary school children with little chance for secondary education. For this reason most SALEM children go to a private school in nearby Nakaloke where monthly fees have to be paid. While you get updates about our work in the whole project, you will also get occasional additional information like photos or updates on your sponsored child so that you can participate in their progress. It is also possible to partially support a child by grouping together with other sponsors.

Without the help of donors like you, we would hardly be able to support these children and their future. So please, help us to give children and young people in SALEM-Uganda a chance for a better life!

Here are some of the ways in which SALEM have provided support to children in our care (names have been changed):

Johnny

He was brought to our children's home when he was found by an old woman in Mbale which is a very deprived area. He was sitting in the street in front of a church and when nobody came to collect him the old woman took him to the police station to ask for help. The police searched for his parents but they could not be found and so was brought to SALEM to be cared for. Nobody knew anything about him - indeed the old woman who found him gave him his name. Now Johnny lives an active life in the SALEM children's home where he has his own bed, nutritious food to eat and is doing well in school. He loves to run and play with the other children and is growing up to be strong and healthy with the chance of a stable future ahead of him.

Sarah

Her mother died in childbirth. She has four siblings and was left by her maternal grandfather who was unable to cope raising all five children alone. She is a fun and easy-going child and while she stays with us we are helping her to bond with her own extended family and working re-introducing them into their lives full time.
